Title:

Comments: To the USFS,

I am writing today in support of this withdrawal. I also urge you to expedite the withdrawal proposal to the secretary of the department of interior. Protecting these pristine lands and the watershed against commercial interests is near and dear to my heart and precisely under the purview of the goals and spirit of the forest service. Making sure that polluting and destructive mining concerns withdraw is a lasting legacy that every one of you at the usfs can be proud to contribute to. Future generations will be able to appreciate your work and feel a true impact from this decision. Please do the right thing!

Thank you for your time.
