First name: Rebecca

Last name: Levinson

Organization:

Title:

Comments: I Absolutely, Unequivocally, support Withdrawing Any and All plans, for mining, in this Beautiful, Pristine, 20,000 acres of the Black Hills. Environmentally healthy areas are (unfortunately) becoming increasingly rare, and it's Imperative, we take Every Precaution to Preserve All Areas, of America, that still have Clean Water, healthy vegetation and soil, and wildlife, maintaining the ecosystem.

This is a Dyer time for Humanity, to move Full Speed Ahead, innovating new technologies, for sustainable energy, that Won't (in Any Way) cause damage to the environment.

We Also, owe All Native Americans, absolute Respect, regarding Any and All wishes and concerns, they have concerning Land that Belongs to Them!

Please forward this Comment, to Deb Halland, Secretary of the Interior.

Thank you, Sincerely, Rebecca Levinson
