Comments: I support the withdrawal of mining operations from the Black Hills. I believe that the US Government owes it to the Indigenous people of this area to respect their wishes for this area that they hold sacred. It is the morally correct thing to do to place the preservation of their sacred area above the profit motives of corporations. This withdrawal proposal should be expedited to the Secretary of the Department of the Interior so that progress can be made before any transition that may occur in the following year, when new staff would have to be brought up to speed on the withdrawal.
