Comments: Greetings & Good Day,

I am writing today because having visited South Dakota with friends and family . We absolutely love this area, the pristine , clean water. We also admire the natural wildness. This place is a national treasure! We as a nation should be protecting it. Please protect it and keep it natural and wild! Our children and grandchildren as well as many generations will be extremely grateful!

I thank you in advance for making the decision to keep it natural!

Respectfully,

Ellen Stevane
