Title:

Comments: The mining going on in the Black Hills must be stopped. The amount of toxic waste will certainly cause contamination of fresh water systems and well as of the land.

Indigenous land should remain free from companies who exploit both land and its people has been happening for far too long. It's time to stand up for indigenous communities, and stop the dumping dangerous byproducts caused by mining. Let's show respect and honor for the rightful owners of this land, and say no to mining.

You are a forest service. You protect our lands. This should be your job to end mining on the thousands of acres, sacred to its people of the Black Hills. Please honor this. Please act quickly, and end mining here.

Thank you,

Robin Kessler
