Comments:
Please help protect a beautiful part of the sacred Sapa (Black Hills) from toxic mining, thereby helping to preserve more than 20,000 acres at the headlands of the Rapid Creek Watershed. Mining companies should withdraw from this pristine and sensitive area immediately.

Mining will jeopardize the cleanliness of the water in this area. We don't think of the disruption to the wildlife, what it does to their habitats or the preservation of sacred lands that belong or should belong to the indigenous peoples.

I ask the Forest Service to expedite the Withdrawal proposal to the Secretary of the Department of Interior. I fully support this withdrawal.
