Comments: I wholeheartedly support the Withdrawal. There hasn't been an extraction project yet that didn't pollute someone's water supply and/or the flora and fauna in the region, and downstream. Separate from all that is, WHEN DOES THE U.S. STOP BREAKING TREATIES AND STOP STEALING SACRED LAND OF THE INDIGENOUS PEOPLE OF TURTLE ISLAND - it's disgusting! I urge the Forest Service to expedite the Withdrawal proposal to the Secretary of the Department of Interior.
