Comments: Mining at the headlands of the Rapid Creek Watershed should be banned. I support the withdrawal of all mining in these 20,000 acres in order to preserve the land, its wildlife, and its ecosystem to ensure clean water and a sustainable environment for the future. Mining is neither needed nor necessary and only ensures our country's natural environment is further destroyed.

Please move quickly to stop mining in this area and submit the Withdrawal proposal to the Secretary of the Interior as soon as possible.
