Comments: To whom it may concern,

I am writing to support the withdrawal of all extractive industry /mining from Pactola Reservoir/Rapid Creek watershed. I am a an Indigenous tribal member who adamantly supports the restoration of sacred lands like He Sapa and the watersheds within them as our ancestors have always done. I have personally experienced the beauty of Rapid Creek which has forever been stewarded by my Lakota relatives. We want to see it preserved for future generations to experience both ceremonially and recreationally. Thank you.
