Comments: I support this withdrawal and welcome the action by the USFS. The Black Hills/He Sapa are of deep cultural importance to many Indigenous people and also hold value for all Americans as a natural resource that should not be exploited for potentially dangerous resource withdrawal. Accidents that happen in seconds could poison a watershed that has supported the land for millennia. Clean water is absolutely critical to maintain the environment and our own human wellbeing, and the withdrawal would support doing this in a small but essential way.

Please expedite this proposal to the Department of the Interior. Thank you.
