Comments: I am writing with an urgent request that you protect a beautiful part of the sacred He Sapa (Black Hills) from toxic mining. For some years, the Black Hills Clean Water Alliance and others have been fighting to preserve more than 20,000 acres at the headlands of the Rapid Creek Watershed. Now the threat of mining would destroy their efforts and these pristine natural spaces.

I clearly support this request for the withdrawal of mining companies! It is vital that clean water, sacred lands, and the wildlife of the Black Hills be preserved. I urge you to expedite this Withdrawal proposal to the Secretary of the Department of Interior.

Thank you for your attention!
