Title:

Comments: I support this Withdrawal. These lands are sacred to our tribal partners, and that should be deeply respected. These lands are also hugely important in terms of the health of the environment, especially in consideration of keeping our waters clean. We are obviously entering a time period where water resources are going to become more and more important, especially considering the impacts of climate change - which we are already seeing. In my opinion we should already be in a state of climate emergency as a country. Please expedite the Withdrawal proposal to the Secretary of the Department of Interior.

Thank You for you Consideration,

Viv MSK Krenz
