Comments: To Whom It May Concern,

I would like to express my support this withdrawal. With this withdrawal, the Forest Service has an opportunity to show its commitment to preserving biodiversity, pristine environments, and scared lands for generations to come. It is truly a chance to do something right and just. Additionally, I ask that the Forest Service expedite the Withdrawal proposal to the Secretary of the Department of Interior.

I hope the Forest Service continues to support the legacy of wild lands through actions such as this Withdrawal.

Sincerely,
Camelia Caton-Garcia
