Title:

Comments: To whom it may concern,

My name is Deena Sherman. General W.T. Sherman is my great great great grand uncle. He was involved with many Native American treaties, most of which were later broken, to the detriment of many Native Tribes. Because of my blood connection to this injustice, I feel an urgent responsibility to defend what Native Americans have left. It seem like what we white folk don't outright take, we pollute with things like mining.

For this reason, and because I generally want to see better environmental policies before Mother Nature sloughs us off like the parasites we have become, I support this withdrawal and ask that the Forest Service expedite the proposal to the Secretary of the Department of Interior.

Please do the right thing and preserve this land that is sacred to Native Americans.

Most sincerely,

Deena B. Sherman
