Title:

Comments: Hello ... my wife and I are retirees who have enjoyed the vast open wilderness areas that can only be found here in the PNW and northern portions of the US.

We support this withdrawal of any and all commercial activities from this pristine wilderness which serves only the benefits of a handful of shareholders/owners.

Areas such as these belong to all of us, individuals living in NA and must be accessible for recreation which is coming harder to find.

We ask that you fast track the withdrawal process.

Thank you for considering our concerns.

Dirk & Kathy Vermeeren
