First name: Maia

Last name: Maia

Organization:

Title:

Comments: Our family heritage, our hearts and minds, are united around the fate of Pactola Creek Watershed:  
and WE STRONGLY SUPPORT WITHDRAWAL

Watersheds clean and store water for all the peoples and wildlife and forests within their reach.

This special area is not only a priceless resource for all who maybe visit and learn how to respectfully and gratefully behave within primary natural areas, but this watershed and land is considered sacred to more than one tribal group from whom so much has already been taken!

Please give your full support on behalf of the "Withdrawal Proposal" and convey as soon as possible to the Secretary of the Interior.

We thank you !

M. Maia and family
