Comments: Please show respect and put an end to toxic mining in the Black Hills of South Dakota. I support this withdraw from this pristine area and desire a complete stoppage to the mining since it will destroy the water so necessary to Natives and people who live here! There is NO Reason to harm the folks in this area anymore than has already occurred. BTW I used to live in Eagle Butte, South Dakota and I keep informed about what our Forest Service and you, with the Department of Interior are facing.

Help America keep precious pristine areas free from pollutants and money grabbing industries at the cost of the truly precious lives of human beings who are American citizens.

Thank you very much for taking the time to read my heart today.
