Comments: These are such crucial matters and decisions to be made and they must be made from the heart, and and wisdom. Not only for us but future generations, how would your children want you to vote regarding the preserving of such pristine lands. We can set the standards and be a model so that other regions both national and international follow suit. I thank you from my heart for listening and trust you will care for this land, in the same way you would care for your family and the way you would want to be cared about if you were in need of protection in any way.

with the consideration and benevolence that you also so richly deserve. Thank YOU!
