Comments: To: USGF

and Constituents

From: US Patriot

Subject: Pactola Reservoir

Respectfully request the withdrawal of all operations which can and will effect the natural functions of the Reservoir. The lands were and are the property of the Indian Nation/Nations. As a tax paying patriot I believe that the continued abuse and disregard for Native American properties is a travesty. The Black Hills are designated lands. Never, I say never to be imputed or abused. The rightful grants given to our Native American citizens and related are not ever will be property of outside entities. This per the rights given in as many treaties and or proclamations. The over abundant reclaims of this and other properties should not be violated. As Free and legal citizens of this entire Nation, the legal and right ownership/s belongs to the Indian Nations, not the highest bidder. I formally request that the unconstitutional giving of these lands be rescinded and all rights be given back to the Indian Nations. I hereby attest that the Pactola Reserve belongs solely to them. (the Native Americans of the Black Hills) God Bless our Nation (USA)
