First name: Janet

Last name: Hedgepath

Organization:

Title:

Comments: I support withdrawal of mining in the headlands of the Rapid Creek Watershed. Toxic mining of the area will pollute waters and damage this area sacred to Native peoples. When an environment is ruined by this type of mining it is not returned to its original state. It is a permanent damage. Further, the people living on the land do not benefit from the mining activity. The mining is done for the profit of a absentee corporation. We should not be allowing corporations to colonize our lands for profit. Please put lands and people over profits.

Thank you

Janet Hedgepath
