Comments: Hello ~

I support this Withdrawal because we have an ethical obligation to both the natural world and the people whose territory is The Black Hills. This is the time for protection of natural places above all else. Please keep long-term perspective. You have the power to steer our course for the better.

Thank you for withdrawing all mining from the Black Hills and expediting this proposal to The Forest Service. Most of all, thank you for doing what is right for our nation, for all nations.

Kind Regards,

Vanessa Osage
