Comments: I still support Alternative C, the Wilderness Exclusion Alternative.

Although fire has played, and continues to play, an important ecological role in these Wildernesses, the Forest Service proposal represents a huge human-driven manipulation of Wilderness that is inconsistent with the letter and spirit of the 1964 Wilderness Act.

The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C. The agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.

Thank you for your time and attention,
