Comments: I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act. Natural causes such as lightening burn enough wilderness - we do not need man-made fires. In addition, think of all of the animal lives that will be lost due to this intentional burning. It is unconscionable. Let nature rule and not mankind. People tend to screw things up.

Finally, the Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C.
