Title:

Comments: I plan to visit the Sequoia and Sierra National Forests, as well as Moses Mountain, when I retire soon and would like to see them as they are now, pristine. But your plan to intentionally start fires is a threat to my plans and I think it's an irresponsible action to take.

I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

The agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.

Please consider the future of these wilderness areas and keeping them from intentional burning so everyone can enjoy their beauty for years to come. Especially for my retirement visit.

Thank you, Herb Stull
