Comments: I read wilderness watch and it's position on designated burns. I mostly agree with their statement that the Forest Service include option C in their planning. I don't agree that option C wilderness areas be excluded and allow natural processes to operate. Wilderness areas should only have ground level fuel be burned and not allow tree cutting or clearing an area without public hearings. I do concur that option C be adopted with the caveat that only ground level fuels in wilderness areas be burned, no tree cutting.
