Comments: To Whom It May Concern,

I do support Alternative "C" for forest management and please add the Moses Mountain Recommended Wilderness to Alternative C. As far as controlled fires are concerned, we all know, because of the current dry cycle our nation is going through, that the possibility of a natural occurring fire would do naturally what man has thought of. I strongly suggest letting nature run its course and "clean up" the forests the natural way and I am very strongly against any tree cutting by man. Thank you very much.

Jerry Hughes
