Comments: Hi there, the lack of environmental awareness in the Forest Service continues to baffle some of us that studied Natural Resource ecology and management, I support Alternative C, the Wilderness Exclusion Alternative. All designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

Moses Mountain wilderness should be added to Alternative C as well.

The agency should instead allow natural fire to play its ecological role in designated Wilderness on the Sequoia and Sierra National Forests.

Thank you

Nick Votto
