Comments: Hello,

I write to comment on the preservation of the Sequoia and Sierra National Forests and include the Moses Mountain Recommended Wilderness in order to comply with the Wilderness Act.

I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service must exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests and the Moses Mountain Recommended Wilderness in order to comply with the Wilderness Act.

I feel the best practice for the agency is to allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.

Human must stop interfering with Mother Nature. Mother Nature has been properly caring for the earth since time began.
