Comments: I believe in wilderness and that human interference with the natural world has no place in wilderness designations. Ignoring the wilderness designation means ignoring the law which is never good and leads societies based on laws to become corrupted. Laws and rules of government should be enforced and upheld.

I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C. The agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.

Thank you.
