Comments: To whom it concerns:

I am writing to support Alternative C, the Wilderness Exclusion Alternative, to also include the Moses Mountain recommended wilderness, from the Forest Service's proposed plans to cut and burn in the Sequoia and Sierra National Forests.

Both designated and proposed wildernesses are wild areas that exist in very few places in the world. They should be free from human intervention and manipulation and allowed to play out their natural ecological role in order to comply with the Wilderness Act.

Please allow these wild places to remain wild.

Thank you,

Sallee Nelson
