Comments: Laws are expected to be followed by all residents and by all government agencies, including yours.

Thus I strongly support Alternative C, the Wilderness Exclusion Alternative that abides by our Wilderness Act laws. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C. Current federal policy is to ensure 30 percent of lands are fully protected and this would honor that commitment applicable to your agency.

Your agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests (the science-based method for fire).
