Comments: I am writing in support of the proposal to withdraw permission for mining in the Rapid Creek Watershed. The reason I support this proposal is because mining has always had a toxic and negative effect on clean water. Our nation needs to preserve as much clean water as possible for current and future generations. I hope that the Forest Service will act quickly to move this withdrawal proposal to a conclusion and send it on to the Secretary of the Interior. Thank you for your consideration of my comments on this issue.
