Title:

Comments: Alternative C is the preferred course of action that will best protect Wilderness and recommended Wilderness. The USFS should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

I believe that the USFS should also protect the Moses Mountain Recommended Wilderness with Alternative C. USFS should allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.
