Comments: I am in full support of Alternative C, the Wilderness Exclusion Alternative. The Sequoia and Sierra National Forests should not be included in the Forest Service as designated and recommended areas of Wildernesses for proposed cutting and burning plans.

The Moses Mountain Wilderness area should be added to the National Forests recommended Wilderness to Alternative C.

Let the earth's rule of nature take its own course for the environment and lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.

Thank you for allowing me to comment on this issue.
