Comments: I'm writing regarding the proposed Prescribed Fire Project in the Sequoia and Sierra National Forests.

Wilderness is vital and rare. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

The agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.

I support Alternative C, the Wilderness Exclusion Alternative.

The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C.
