Comments: As an American citizen who loves the outdoors, I'm very concerned about the plan to set fire to and take chainsaws to the Sequoia and Sierra National Forests. There must be another way to solve a problem that essentially affects us all, even if we don't live near these forests.

What about trying the Wilderness Exclusion Alternative? And what about adding the Moses Mountain wilderness to Alternative C?

We all need to think carefully about the best way to preserve our common heritage, and not rush to burn or cut these trees.

Thank you very much for your time.
