Comments: I understand the need to change forest undergrowth management policy from prior decades of now proven flawed methods. But I do not support a 'MASSIVE ONE BURN FIXES ALL APPROACH THAT INDISCRIMINATELY SCORCHES DESIGNATED 'WILDERNESS AREAS' WITH NO CONSIDERATION WHATSOEVER FOR THEIR SPECIFIC FLORA FAUNA, AND THEIR DENSITY DESIGNATIONS (not to mention assessment of the impact on specific waterways, wildlife and bird inhabitants).

Consequently, I overwhelmingly support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should EXCLUDE ALL DESIGNATED AND RECOMMENDED WILDERNESSES from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act in order to give them the specific attention and remedy they deserve.

The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C. The agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.

The IDEA IS TO SAVE THESE WONDERFUL WILDERNESS AREAS, NOT TO CRY 'OOPS' AFTER AN ATTEMPT AT POLITICALLY MOTIVATED GREED OR FINANCIAL EXPEDIENCY. Instead I hope you will remember that Nature (of which we humans are a part) doesn't work that way so please act responsibly and with your children, and theirs, in mind.
