Title:
Comments: I write to you with an urgent demand for taking action to protect the Black Hills from toxic mining. Please respect the Clean Water Alliance to preserve the headlands of the Rapid Creek Watershed now. Please require mining companies to withdraw from this pristine and sensitive area. The children of future generations will suffer from the effects of the contaminated causes of mining and extraction. We must demonstrate a good and responsible example to our children. Please expedite the withdrawal of this proposal to the Secretary of the Department of Interior.
Thank you,
Keith Evans
