First name: Tawny

Last name: McLellan

Organization:

Title:

Comments: Please reconsider the Sequoia and Sierra National Forests Prescribed Fire Project. #65081. By including the Wilderness areas in the burn, you will alter the natural course of that habitat forever. Please implement the alternative fire project plan I have read about that will exclude the entirety of the designated Wilderness areas that are so important, especially to me and my family. We value the untouched Wilderness for many reasons and want to continue to visit unspoiled lands as do many other like-minded citizens. As a citizen, California resident, voter and tax payer I implore you to change this project!

Thank you, Tawny McLellan
