Comments: Put simply, I support Alternative C, the Wilderness Exclusion Alternative. I feel that, from a wilderness perspective, it is far better to allow natural, lightning-caused fire to play its role, rather than to invade Wilderness to cut down "undesirable" trees and burn forests based on human wishes and desires.

Further, I feel that the Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C.

Please allow me to note that I have borrowed language from other sources to build this comment; however, I have done so merely to be concise. I have read the case for Alternative C, and I support it fully.
