Comments: I support the Pactola Reservoir-Rapid Creek Watershed Withdrawal. I feel it is important to preserve our natural resources and to protect them from exploitation. Please see this as a question of whether humanities desire to protect nature over the desire to destroy nature only to make money. We need clean water to live an abundant life, we need to preserve nature to keep a spiritual connection to the land now and forever. The continual assault to develop natural settings must be halted before it is gone forever.
