Comments: Are you already implementing Project 2025? Do you actually think that the people that want California to burn down will not go after you as well? This plan is preposterous. One would have thought that burning down the village to save it was realized to have been stupid. This is a monstrous action, showing that you are totally into cruelty.

Here are more polite words from Wilderness Watch:

I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C.

The agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.
