Title:

Comments: #63876. Please remove all mining present and future away and faraway from Pactola reservoir and Big Creek watershed. I am saddened by the raping of my land and your land too. This is land that belongs to the Native American people.

Most of us are related. We have got to protect everything we can. We can and must protect this Pactola reservoir from the poisons of the mining industry please consider my plea and the pleas from all of us. If you don't understand just go and take a look at the beauty. Save it
