Comments: I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act. Please add the Moses Mountain Recommended Wilderness to Alternative C. The Forest Service should allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests. Please don't burn designated wilderness areas. Wilderness should not be "managed" by humans but allowed to exist in its naturally occurring state.
