Title:

Comments: I fully support this Withdrawal. It is imperative that we take steps to protect the Black Hills for a multitude of reasons - their sacred nature for the indigenous people who lived here for years before us, their beauty and the benefit they've given millions of Americans (including me) and a commitment to providing clean water for everyone in the US. I know that creating a safe and enjoyable life for everyone in this country is a priority of yours, which is why supporting the withdrawal should be important for all of us. Please also expedite the proposal to the Secretary of the Department of Interior. Thank you for your time.
