Comments: I am writing to support Alternative C, the Wilderness Exclusion Alternative. Accordingly, in executing this plan, please comply with the Wilderness Act and include Moses Mountain Recommended Wilderness to Alternative C. All ecosystems must be considered in all forest manipulation, including burns and logging. Wildfire threat isn't the only risk that needs mitigation in this increasingly undependable climate. Please consider wildlife and habitat along with their food and water sources. We urgently need to protect our wonderful wildlife and forests for the future and we will be glad we did.
