Comments: I believe the USFS should protect the 20,000 acres at the headlands of the Rapid Creek Watershed, a beautiful part of the sacred Black Hills from toxic mining.

I believe clean water, the preservation of pristine/sacred lands, wildlife, and the value of recreation in these wild places should be protected.

To this end, I believe the USFS should require mining companies to withdraw from this pristine and sensitive area.

I also urge the USFS to expedite this Withdrawal proposal to the Secretary of the Department of Interior.
