Comments: I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with both the letter and the intent of the Wilderness Act.

Human engineered and implemented actions in designated Wilderness, especially when undertaken on a massive scale, destroy the fundamental essence of what constitutes Wilderness - which is that which is untouched and unspoiled by human alteration.

The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C.

The agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests.
