Comments: I support this withdrawal. I love the Black Hills and is a place I have had a special connection to my entire life for the last over seventy years since I was three years old. I am strongly supportive of keeping the hills as pristine as possible because of the wildlife, plant life, and the sacred significance of the hills to the indigenous peoples of this area. Clean water is also an essential for everyone--human, plant, animal--and is more and more a threatened resource. To compromise this further seems very unwise. Please expedite the withdrawal proposal to the Secretary of the Department of the Interior.
