Title:

Comments: Please act on behalf of future generations and preserve this irreplaceable ecosystem. I support Alternative C, the Wilderness Exclusion Alternative. The Forest Service should exclude all designated and recommended Wildernesses from its proposed cutting and burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act. The Forest Service should also add the Moses Mountain Recommended Wilderness to Alternative C.

The agency should instead allow natural, lightning-caused fire to play its ecological role in designated and recommended Wilderness on the Sequoia and Sierra National Forests. This is the only option that will serve the long term interests of both wildlife, endangered plant species, and opportunities for low impact human recreation. Thank you!
